

## Move More Month: Turning the City into a playground

Physical activity can be fun and this year for Move More Month we're encouraging the people of Sheffield to turn the City into a playground and hop, skip and jump their way to being more active.

Through the use of environmental prompts (yes it's a hop scotch), we want to create opportunities as part of everyday City life to engage in some fun physical activity and connect people with the Move More message

We are aiming to have 20 of these across the city in key locations and are looking for likeminded businesses to support us by sponsoring a hop scotch.

The cost of each one is £300. This will cover manufacturing, include the business logo and will be supported by associated social media posts and online media.

There are only a limited number of these available and so please get in touch with Andy Picken to book your slot: [ajp28consultancy@gmail.com](mailto:ajp28consultancy@gmail.com) or 07887400202.
